## Trainer Name

Gamana R

## Summary

Digital native, a Tech Enthusiast and focused professional Trainer with an experience of more than 2.3 years as a Technology/Software Trainer and overall 3+ years of experience in the Tech & Training industry. Delivering Online training programs to participants across the globe on Web Technologies. Responsible of Developing Online Technical Training Content in the Web Development which includes (Data Structures, Core Java, HTML, CSS, JavaScript, Bootstrap, jQuery, TypeScript and Angular) of Current versions. Determine course content according to Objectives. Prepare Training material (Presentations, Kc's, assessments & Worksheets). Execute Training Sessions and Webinars.

- I have trained over 50 professionals in Web Technologies.
- I have trained more than 100+ students in web Technologies majorly on HTML5, CSS, JavaScript, Bootstrap, jQuery, TypeScript and Angular.

I was also a Software Developer at Axis rooms. Responsible for Developing and Designing the Extranet which enables hoteliers to manage the content (inventory, Prices, taxes, Policies, Offers and Promotions) of each hotel. Contents are updated in the real-time across all Systems.

The Extranet is currently used by Gotadi, Redfox & JCK. Gotadi uses our APIs to get the information related to hotels and display the same on their main UI ([www.Gotadi.com](http://www.Gotadi.com)).
